there is no impact on VY’s safe shutdown capability by this reduction in separation.

Environmental Impacts of the Proposed Action

The NRC has completed its safety evaluation (SE) of the proposed action and concludes that the further reduction in minimum separation distance is sufficient to maintain an adequate level of safety to meet the requirements of 10 CFR 50.12(a)(2)(ii) in that the application of the regulation is not necessary to achieve the underlying purpose of the rule. The details of the staff’s SE will be provided in the exemption that will be issued as part of the letter to the licensee approving the exemption.

The proposed action will not significantly increase the probability or consequences of accidents. No changes are being made in the types of effluents that may be released off site. There is no significant increase in the amount of any effluent released off site. There is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the NRC staff considered denial of the proposed action (i.e., the “no-action” alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resources than those previously considered in the Final Environmental Statement for VY.

Agencies and Persons Consulted

In accordance with its stated policy, on January 15, 2009, the NRC staff consulted with the Vermont State official of the Vermont Department of Public Service regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee’s letter dated July 11, 2008, Agencywide Documents Access and Management System (ADAMS) accession number ML081000176, as supplemented by letter dated November 20, 2008, ADAMS accession number ML083370180. Documents may be examined, and/or copied for a fee, at the NRC’s Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland.

Publicly available records will be accessible electronically from the ADAMS Public Electronic Reading Room on the Internet at the NRC Web site, http://www.nrc.gov/reading-rm/adams.html. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1–800–397–4209 or 301–415–4737, or send an e-mail to pdr@nrc.gov.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE
[Docket No. USTR–2008–0036]

Delay in Modification of Action Taken in Connection With WTO Dispute Settlement Proceedings on the European Communities’ Ban on Imports of U.S. Beef and Beef Products

AGENCY: Office of the United States Trade Representative.

ACTION: Notice and modification of action.

SUMMARY: On January 15, 2009, the United States Trade Representative (‘‘Trade Representative’’) announced modifications (‘‘January 15 modifications’’) to the action taken in July 1999 in connection with the World Trade Organization (‘‘WTO’’) authorization to the United States in the EC-Beef Hormones dispute to suspend concessions and related obligations with respect to the European Communities (‘‘EC’’). See 74 FR 4265 (Jan. 23, 2009).

The January 15 modifications had an effective date of March 23, 2009. In order to allow additional time to reach agreement with the EC on an interim solution that would provide benefits to the U.S. beef industry, the Trade Representative has decided to delay for one month (until April 23, 2009) the effective date of the additional duties imposed under the January 15 modifications. The effective date of the removal of duties under the January 15 modifications will remain March 23, 2009.

Effective Date: As set out in Annex I to this notice, the removal of duties on items deleted from the product list under the January 15 modifications shall be effective with respect to products that are entered, or withdrawn from warehouse, for consumption on or after March 23, 2009. As set out in Annex II to this notice, the additional duties under the January 15 modifications shall be effective with respect to products that are entered, or withdrawn from warehouse, for consumption on or after April 23, 2009.

FOR FURTHER INFORMATION CONTACT:
Roger Wentzel, Director, Agricultural Affairs, (202) 395–6127 or David Weiner, Director for the European Union, (202) 395–4620 for questions concerning the EC-Beef Hormones dispute; or William Buis, Associate General Counsel and Chair of the Section 301 Committee, (202) 395–3150, for questions concerning procedures under Section 301.

SUPPLEMENTARY INFORMATION: For background concerning the EC-Beef Hormones WTO dispute and the January 15 modifications, see 74 FR 4265 (Jan. 23, 2009).

In the January 15 modifications, the Trade Representative decided: (1) To remove some products from the list of products currently subject to 100 percent ad valorem duties; (2) to impose 100 percent ad valorem duties on some new products from certain EC member States; (3) to modify the coverage with respect to particular EC member States; and (4) to raise the level of duties on one of the products that is being maintained on the product list.

Pursuant to Section 305 of the Trade Act of 1974, the Trade Representative...
has determined that a one-month delay (until April 23, 2009) in implementation of certain elements of the January 15 modifications would be desirable to obtain a satisfactory solution with respect to the EC’s ban on U.S. beef. The elements to be delayed are: (i) The imposition of increased duties on additional products, (ii) the application to products of additional EC member States of the increased duties on currently covered products, and (iii) the increase in the level of duties on one of the products that is being maintained on the product list. The Trade Representative has not delayed the March 23, 2009 effective date of the removal of duties under the January 15 modifications.

As set out in Annex I to this notice, the removal of duties on items deleted from the product list under the January 15 modifications shall be effective with respect to products that are entered, or withdrawn from warehouse, for consumption on or after March 23, 2009. Any merchandise covered under Part D of Annex I that is admitted to a U.S. foreign-trade zone on or after March 23, 2009 must be admitted in “privileged foreign status” as defined in 19 CFR 146.41. Questions concerning customs matters may be directed to Renee Chovanec, International Coordination, Office of International Trade, U.S. Customs and Border Protection, 202–663–6384.

The Annexes to this notice supercede and replace in full the Annex to the earlier notice published at 74 FR 4265 (Jan. 23, 2009), which initially put in place the January 15 modifications.

William Busis,
Chair, Section 301 Committee.
