For purposes of determining the percentage referred to in (II)(B) above, the term "beneficiary country" includes the Commonwealth of Puerto Rico and the United States Virgin Islands. If the cost or value of materials produced in the customs territory of the United States (other than the Commonwealth of Puerto Rico) is included with respect to an article to which subdivision (c)(ix) applies, an amount not to exceed 15 percent of the appraised value of the article at the time it is entered that is attributed to such United States cost or value may be applied toward determining the percentage referred to in subparagraph (II)(B).

(2) Pursuant to subsection 204(a)(2) of the ATPA, the Secretary of the Treasury shall prescribe such regulations as may be necessary to carry out subdivision (c)(ix) of this note including, but not limited to, regulations providing that, in order to be eligible for duty-free treatment under the ATPA, an article must be wholly the growth, product, or manufacture of a beneficiary country, or must be a new and different article of commerce which has been grown, produced, or manufactured in the beneficiary country; but no article or material of a beneficiary country shall be eligible for such treatment by virtue of having merely undergone--

(I) simple combining or packaging operations, or

(II) mere dilution with water or mere dilution with another substance that does not materially alter the characteristics of the article.

(3) As used in subdivision (c)(ix)(B) of this note, the phrase "direct costs of processing operations" includes, but is not limited to--

(I) all actual labor costs involved in the growth, production, manufacture, or assembly of the specific merchandise, including fringe benefits, on-the-job training and the cost of engineering, supervisory, quality control, and similar personnel; and

(II) dies, molds, tooling, and depreciation on machinery and equipment which are allocable to the specific merchandise.

Such phrase does not include costs which are not directly attributable to the merchandise concerned or are not costs of manufacturing the product, such as (I) profit, and (II) general expenses of doing business which are either not allocable to the specific merchandise or are not related to the growth, production, manufacture, or assembly of the merchandise, such as

administrative salaries, casualty and liability insurance, advertising, interest, and salesmen's salaries, commissions or expenses.

Whenever an eligible article is imported into the customs territory of the United States in accordance with the provisions of subdivision (c)(ix)(B) of this note from a country listed in subdivision (c)(ix)(A) of this note, it shall be eligible for duty-free treatment set forth in the "Special" subcolumn, unless excluded from such treatment by subdivision (c)(ix)(D) of this note. Whenever a rate of duty other than "Free" appears in the "Special" subcolumn followed by the symbol "J" in parentheses, articles imported into the customs territory of the United States in accordance with the provisions of subdivision (c)(ix)(B) of this note from a country listed in subdivision (c)(ix)(A) of this note shall be eligible for such rate in lieu of the rates of duty set forth in the "General" subcolumn.
- (D) Articles provided for in a provision for which a rate of duty of "Free" appears in the "Special" subcolumn followed by the symbol "J*" in parentheses shall be eligible for the duty-free treatment provided for in subdivision (c)(ix) of this note, except--

- are not goods subject to the provisions of the tariff schedule.
5. Commingling of Goods.

 - (i) sampling,
 - (ii) verification of packing lists or other documents filed at the time of entry, or
 - (iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

 - (b) Every segregation of goods made pursuant to this note shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the goods are commingled and that the quantity or value of each class of goods cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.
 - (c) The foregoing provisions of this note do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof--
 - (i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and
 - (ii) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes as a part of the goods, subject to the next lower rate of duty, with which they are commingled.
 - (d) The foregoing provisions of this note do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof--
 - (i) that the value of the commingled goods is less than the aggregate value would be if the shipment were segregated;
 - (ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and
 - (iii) that the commingling was not intended to avoid the payment of lawful duties.

Any goods with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater

quantity than any other material.

General note 5 (con.):

- (e) The provisions of this note shall apply only in cases where the tariff schedule does not expressly provide a particular tariff treatment for commingled goods.

- (i) "wholly of" means that the goods are, except for negligible or insignificant quantities of some other material or materials, composed completely of the named material;
- (ii) "in part of" or "containing" mean that the goods contain a significant quantity of the named material.

With regard to the application of the quantitative concepts specified above, it is intended that the *de minimis* rule apply.

- (f) the term "headings" refers to the article descriptions and tariff provisions appearing in the schedule at the first hierarchical level; the term "subheading" refers to any article description or tariff provision indented thereunder; a reference to "headings" encompasses subheadings indented thereunder.

8. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the tariff schedule. The allowance of an importer's claim for classification, under any of the provisions of the tariff schedule which provides for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this note.

9. Methods of Ascertainment. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

GENERAL RULES OF INTERPRETATION

Classification of goods in the tariff schedule shall be governed by the following principles:

1. The table of contents, alphabetical index, and titles of sections, chapters and sub-chapters are provided for ease of reference only; for legal purposes, classification shall be determined according to the terms of the headings and any relative section or chapter notes and, provided such headings or notes do not otherwise require, according to the following provisions:
2. (a) Any reference in a heading to an article shall be taken to include a reference to that article incomplete or unfinished, provided that, as entered, the incomplete or unfinished article has the essential character of the complete or finished article. It shall also include a reference to that article complete or finished (or falling to be classified as complete or finished by virtue of this rule), entered unassembled or disassembled.

(b) Any reference in a heading to a material or substance shall be taken to include a reference to mixtures or combinations of that material or substance with other materials or substances. Any reference to goods of a given material or substance shall be taken to include a reference to goods consisting wholly or partly of such material or substance. The classification of goods consisting of more than one material or substance shall be according to the principles of rule 3.
3. When, by application of rule 2(b) or for any other reason, goods are, *prima facie*, classifiable under two or more headings, classification shall be effected as follows:

(a) The heading which provides the most specific description shall be preferred to headings providing a more general description. However, when two or more headings each refer to part only of the materials or substances contained in mixed or composite goods or to part only of the items in a set put up for retail sale, those headings are to be regarded as equally specific in relation to those goods, even if one of them gives a more complete or precise description of the goods.

(b) Mixtures, composite goods consisting of different materials or made up of different components, and goods put up in sets for retail sale, which cannot be classified by reference to 3(a), shall be classified as if they consisted of the material or component which gives them their essential character, insofar as this criterion is applicable.

(c) When goods cannot be classified by reference to 3(a) or 3(b), they shall be classified under the heading which occurs last in numerical order among those which equally merit consideration.
4. Goods which cannot be classified in accordance with the above rules shall be classified under the heading appropriate to the goods to which they are most akin.
5. In addition to the foregoing provisions, the following rules shall apply in respect of the goods referred to therein:

(a) Camera cases, musical instrument cases, gun cases, drawing instrument cases, necklace cases and similar containers, specially shaped or fitted to contain a specific article or set of articles, suitable for long-term use and entered with the articles for which they are intended, shall be classified with such articles when of a kind normally sold therewith. This rule does not, however, apply to containers which give the whole its essential character;

(b) Subject to the provisions of rule 5(a) above, packing materials and packing containers entered with the goods therein shall be classified with the goods if they are of a kind normally used for packing such goods. However, this provision is not binding when such packing materials or packing containers are clearly suitable for repetitive use.
6. For legal purposes, the classification of goods in the subheadings of a heading shall be determined according to the terms of those subheadings and any related subheading notes and, *mutatis mutandis*, to the above rules, on the understanding that only subheadings at the same level are comparable. For the purposes of this rule, the relative section, chapter and subchapter notes also apply, unless the context otherwise requires.

ADDITIONAL U.S. RULES OF INTERPRETATION

1. In the absence of special language or context which otherwise requires--
 - (a) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to, the date of importation, of goods of that class or kind to which the imported goods belong, and the controlling use is the principal use;
 - (b) a tariff classification controlled by the actual use to which the imported goods are put in the United States is satisfied only if such use is intended at the time of importation, the goods are so used and proof thereof is furnished within 3 years after the date the goods are entered;
 - (c) a provision for parts of an article covers products solely or principally used as a part of such articles but a provision for "parts" or "parts and accessories" shall not prevail over a specific provision for such part or accessory; and
 - (d) the principles of section XI regarding mixtures of two or more textile materials shall apply to the classification of goods in any provision in which a textile material is named.

GENERAL STATISTICAL NOTES

1. Statistical Requirements for Imported Goods.

- (a) Persons making customs entry or withdrawal of goods imported into the customs territory of the United States shall complete the entry summary or withdrawal forms, as provided herein and in regulations issued pursuant to law, to provide for statistical purposes information as follows:
 - (i) the number of the Customs district and of the port where the goods are being entered for consumption or warehouse, as shown in Statistical Annex A of the tariff schedule;
 - (ii) the name of the vessel or the name of the airline, or in the case of shipment by other than vessel or air, the means of transportation by which the goods first arrived in the United States;
 - (iii) the foreign port of lading;
 - (iv) the U.S. port of unloading for vessel and air shipments;
 - (v) the date of importation;
 - (vi) the country of origin of the goods expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;
 - (vii) the country of exportation expressed in terms of the designation therefor in Statistical Annex B of the tariff schedule;
 - (viii) the date of exportation;
 - (ix) a description of the goods in sufficient detail to permit the classification thereof under the proper statistical reporting number in the tariff schedule;
 - (x) the statistical reporting number under which the goods are classifiable, including the appropriate symbol placed as a prefix to the statistical reporting number when claiming special tariff treatment as provided for in general note 3(c)(i) (asterisks, however, are not to be reported with or in place of the symbol prefix, e.g. for the Generalized System of Preferences only the "A" and not the asterisk shall be reported);
 - (xi) gross weight in kilograms for the goods covered by each reporting number for all modes of transportation;
 - (xii) the net quantity in the units specified herein for the classification involved and with the units noted;
 - (xiii) the U.S. dollar value in accordance with the definition of section 402 of the Tariff Act of 1930, as amended, for all merchandise including that free of duty or dutiable at specific rates;
 - (xiv) the aggregate cost (not including U.S. import duty, if any), in U.S. dollars, of freight, insurance and all other charges, costs and expenses (each of which charges, costs and expenses shall be separately itemized on or attached to the related invoice) incurred (except as provided below) in bringing the merchandise from alongside the carrier at the port of exportation in the country of exportation and placing it alongside the carrier at the first U.S. port of entry. In the case of overland shipments originating in Canada or Mexico, such costs shall include freight, insurance, and all other charges, costs and expenses incurred in bringing the merchandise from the point of origin (where the merchandise begins its journey to the United States) in Canada or Mexico to the first U.S. port of entry; and
 - (xv) such other information with respect to the imported goods as is provided for elsewhere in the tariff schedule.

General statistical note 1 (con.)

- (b) For the purpose of paragraph (a), the following provisions shall govern:
- (i) the country of exportation shall be the country of origin except when the merchandise while located in a third country is the subject of a new purchase in which event the third country shall be regarded and reported as the country of exportation, and the date of exportation from the third country shall be regarded and reported as the date of exportation; and
 - (ii) in the event that information for the purposes of subparagraph (xiv) of paragraph (a) cannot be readily obtained, the person making the entry or withdrawal shall provide reasonable estimates of such information. The acceptance of an estimate for a particular transaction does not necessarily relieve the person making the entry or withdrawal from obtaining the necessary information for similar future transactions.

2. Statistical Annotations.

- (a) The statistical annotations to the Harmonized Tariff Schedule of the United States consist of--
- (i) the 2-digit statistical suffixes and any article descriptions applicable thereto,
 - (ii) the indicated units of quantity, and
 - (iii) the statistical notes and annexes.
- (b) The legal text of the Harmonized Tariff Schedule of the United States consists of the remaining text as more specifically identified in the general rules of interpretation.

3. Statistical Reporting Number.

- (a) Except as provided in paragraph (b) of this note, and in the absence of specific instructions to the contrary elsewhere, the statistical reporting number for an article consists of the 10-digit number formed by combining the 8-digit subheading number with the appropriate 2-digit statistical suffix. Thus, the statistical reporting number for live monkeys dutiable under subheading 0106.00.50 is "0106.00.5010".
- (b) Whenever in the tariff schedule an article is classifiable under a provision which derives its rate of duty from a different provision, the statistical reporting number is, in the absence of specific instructions to the contrary elsewhere, the 10-digit number for the basic provision followed by the 10-digit subheading number of the provision from which the rate is derived. Thus, the statistical reporting number of mountings for optical telescopes is "9005.90.0000-9005.80.4040". If multiple statistical reporting numbers are shown for the subheading from which the duty rate is derived and the shipment contains articles covered by more than one statistical reporting number from the subheading, then report the last applicable statistical reporting number only.
- (c) Whenever an article is eligible for reduced Merchandise Processing Fee (MPF), and a claim therefor is made under one of the following programs, the statistical reporting number is, in absence of specific instructions to the contrary elsewhere, the 10-digit number prefixed by the appropriate symbol indicated below:

Automotive Products Trade Act	-	B#
Agreement on Trade in Civil Aircraft	-	C#
United States-Canada Free-Trade Agreement	-	CA

General statistical note 3 (con.)

- (d) Whenever a claim is made for special tariff treatment under one of the following programs, the statistical reporting number is, in absence of specific instructions to the contrary elsewhere, the 10-digit number prefixed by the appropriate symbol indicated below:

Products of Puerto Rico (advanced in value or improved in condition in a CBERA beneficiary country) (see 19 U.S.C. 2703(a)(5))	-	W
Products of Insular Possessions	-	Y
Articles from the Freely Associated States	-	Z

- (e) Whenever in the tariff schedule goods are classified as a set in accordance with General Rules of Interpretation 3(b) or 3(c), the set is to be identified by placing the prefix "X" in front of the statistical reporting numbers applicable to the set.

4. Abbreviations.

- (a) An "X" appearing in the column for units of quantity means that no quantity (other than gross weight) is to be reported.
- (b) Whenever two separate units of quantity are shown for the same article, the "v" following one of such units means that the value of the article is to be reported with that quantity.
- (c) The following symbols and abbreviations are used with the meanings respectively indicated below:

gr. containers	-	-	gross containers
ISRI	-	-	Institute of Scrap Recycling Industries
ode	-	-	ozone depletion equivalent

5. Reporting of exports.

Except as noted below, the statistical reporting numbers for articles classified in chapters 1 through 97 of this schedule may be used in place of comparable Schedule B numbers on the Shipper's Export Declaration. Statistical reporting numbers for articles covered by chapters 98 and 99 of this schedule may only be used on import entries. Schedule B numbers may not be reported on import entries in place of HTS numbers. Statistical reporting numbers used on the Shipper's Export Declaration should not include any symbols in the form of prefixes used to denote special tariff treatment.

Through this notice, this publication may be used in place of the reporting codes of Schedule B for reporting exports on the Shipper's Export Declaration or under the program for electronic reporting of exports.

Except as noted below, the statistical reporting numbers (with the article descriptions and units of quantity) for articles falling in Chapters 1 through 97 may be used in place of those in Schedule B. The special prefix symbols which denote special tariff treatment should not be included.

2. Shipping containers leaving the United States strictly as instruments of international traffic (i.e., in their capacity as carriers of merchandise), and not for sale or transfer of ownership, are not considered to be exported; therefore, such containers are not required to be reported on the Shipper's Export Declaration. However, they may be:
 - (a) Reported (if for any reason the exporter wishes to record their movement) under Schedule B number 9801.20.0000, whether loaded or empty; and
 - (b) The value reported for such instruments of international traffic shall exclude the value of the contents (if any) of such containers.
