Notice of Final Determination of Sales at Less Than Fair Value and Affirmative Final Determination of Critical Circumstances: Wax and Wax/Resin Thermal Transfer Ribbons from Japan

\textbf{AGENCY:} Import Administration, International Trade Administration, Department of Commerce.

\textbf{ACTION:} Notice of Final Determination of Sales at Less Than Fair Value and Affirmative Final Determination of Critical Circumstances: Wax and Wax/Resin Thermal Transfer Ribbons (TTR) from Japan.

\textbf{SUPPLEMENTARY INFORMATION:}

\textbf{Case History}

\textbf{Scope of Investigation}

This investigation covers wax and wax/resin thermal transfer ribbons (TTR), in slit or unslit (“jumbo”) form originating from Japan with a total wax content and colorant layer of equal to or greater than 45 percent, by weight, in the colorant layer. The POI is April 1, 2002, through March 31, 2003. This period corresponds to the four most recent fiscal quarters prior to the month of filing of the petition (i.e., June 2003) involving imports from a market economy, in accordance with our regulations. See 19 CFR § 351.204(b)(1).

\textbf{Facts Available}

In the Preliminary Determination, we based the dumping margin for the mandatory respondents, DNP and UC, on adverse facts available pursuant to sections 776(a) and 776(b) of the Act. The use of adverse facts available was warranted in this investigation because DNP withdrew its questionnaire responses from the record and UC failed to respond to any part of the antidumping duty questionnaire issued by the Department. See Preliminary Determination, 68 FR at 42386. The withdrawal of such information significantly impeded this proceeding because the Department could not accurately determine a margin without responses to our questionnaires. In addition, we found that DNP and UC failed to cooperate to the best of their ability. We assigned DNP and UC the highest margin stated in the notice of initiation. See Notice of Initiation of Antidumping Duty Investigation: Thermal Transfer Ribbons From France, Japan and the Republic of Korea, 68 FR 38305 (June 27, 2003). A complete explanation of the selection, corroboration, and application of adverse facts available can be found in the Preliminary Determination.

The POI is from Japan.

The merchandise subject to this investigation may be classified in the Harmonized Tariff Schedule of the United States (HTSUS) at heading 3702 and subheadings 3921.90.40.25, 9612.10.90.30, 3204.90, 3506.99, 3919.90., 3920.62, 3920.99 and 3926.90. The tariff classifications are provided for convenience and U.S. Customs and Border Protection (CBP) purposes; however, the written description of the scope of the investigation is dispositive.

The POI is April 1, 2002, through March 31, 2003. This period corresponds to the four most recent fiscal quarters prior to the month of filing of the petition (i.e., June 2003) involving imports from a market economy, in accordance with our regulations. See 19 CFR § 351.204(b)(1).
Since the publication of the Preliminary Determination, no interested parties have commented on our application of adverse facts available with respect to the LTFV determination. Accordingly, for the final determination, we continue to use the highest margin stated in the notice of initiation for DNP and UC. The “All Others” rate remains unchanged as well.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this investigation are addressed in the “Issues and Decision Memorandum for the Final Results of Sales at Less Than Fair Value and Affirmative Final Determination of Critical Circumstances: Wax and Wax/Resin Thermal Transfer Ribbons from Japan” from Joseph Spetrini to James J. Jochum (March 1, 2004) (Decision Memo), which is hereby adopted by this notice. A list of the issues which parties raised and to which we respond in the Decision Memo is attached to this notice as an Appendix. The Decision Memo is a public document and is on file in the Central Records Unit, Main Commerce Building, Room B-099, and is accessible on the Web at www ia ita doc gov.

Final Critical Circumstances Determination

On November 26, 2003 the petitioner in this investigation, International Imaging Materials Inc. (IIMAK), submitted an allegation of critical circumstances with respect to imports of wax and wax/resin thermal transfer ribbons from Japan. On December 22, 2003, the Department issued its Preliminary Determination that it had reason to believe or suspect critical circumstances exist with respect to imports of TTR from Japan. See Preliminary Determination, 68 FR at 71074–76. We now find that critical circumstances exist for imports of wax and wax/resin thermal transfer ribbons from Japan. See Decision Memo at Comment 2.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we are directing CBP to continue to suspend liquidation of all entries of subject merchandise from Japan, that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of the Preliminary Determination for “all other” Japanese exporters. The Department will direct CBP to suspend liquidation of all entries of TTR from Japan that are entered, or withdrawn from warehouse, on or after 90 days before the date of publication of the Preliminary Determination for DNP and UC. CBP shall continue to require a cash deposit or posting of a bond equal to the estimated amount by which the normal value exceeds the U.S. price as shown below. This suspension of liquidation instructions will remain in effect until further notice.

We determine that the following dumping margins exist for the POI:

International Trade Commission Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission (ITC) of our determination. The ITC will determine, within 45 days, whether imports of subject merchandise from Japan are causing material injury, or threaten material injury, to an industry in the United States. If the ITC determines that material injury or threat of injury does not exist, this proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP officials to assess antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse for consumption on or after the effective date of the suspension of liquidation.

This notice also serves as a reminder to parties subject to APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This determination is issued and published in accordance with sections 735(d) and 777i(1)(I) of the Act.

James J. Jochum,
Assistant Secretary for Import Administration.
