

UNITED STATES INTERNATIONAL TRADE COMMISSION

WASHINGTON, DC 20436

May 10, 2004

To Whom It May Concern:

The enclosed questionnaire pertains to the United States International Trade Commission's investigations concerning light-walled rectangular pipe and tube. The investigations are being conducted under the provisions of section 731 of the Tariff Act of 1930.

In these investigations the Commission must determine whether an industry in the United States is materially injured or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Mexico and Turkey of light-walled rectangular pipe and tube that have been found to be sold in the United States at less than fair value. A copy of the Commission's notice of these investigations is enclosed and will be published in the *Federal Register*.

The business proprietary information you supply in this questionnaire or in connection therewith will be so treated by the Commission and will not be disclosed except as may be required by law. Your response will be consolidated with the responses of other firms and will form much of the statistical base for the Commission's determinations. The questions in the questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible.

Please return the completed questionnaire to the Commission by no later than July 14, 2004. (Note: Financial data requested in the U.S. producers' questionnaire for the interim periods January-June 2003 and January-June 2004 are due by no later than July 28, 2004). If you have any questions concerning the questionnaire or other matters related to the investigations, please contact Fred Ruggles (202-205-3187 or fred.ruggles@usitc.gov) of the Commission's staff. Correspondence may be sent to the above address or via FAX to 202-205-3205.

Sincerely,

Robert Carpenter
Director
