The petitions were submitted pursuant to Section 251 of the Trade Act of 1974 (19 U.S.C. 2341). Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm’s workers, or threat thereof, and to a decrease in sales or production of each petitioning firm. Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by Trade Adjustment Assistance, Room 7812, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business of the tenth calendar day following the publication of this notice. The Catalog of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.313, Trade Adjustment Assistance.

Dated: July 20, 2005.

Anthony J. Meyer, Senior Program Analyst, Office of Strategic Initiatives.

Ammonium Nitrate from the Russian Federation: Extension of Preliminary and Final Results of a Full Five-year Sunset Review of Suspended Antidumping Duty Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (“the Department”) is extending the time limit for its preliminary results in the full sunset review of the suspended antidumping duty investigation on ammonium nitrate from the Russian Federation (“Russia”). As a result of this extension, the Department intends to issue the preliminary results of this sunset review on or about October 18, 2005 and the final results of this sunset review by February 27, 2006.

EFFECTIVE DATE: July 26, 2005.

FOR FURTHER INFORMATION CONTACT: Judith Wey Rudman or Aishe Allen, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482–0192, or 482–0172, respectively.

SUPPLEMENTARY INFORMATION:
Extension of Preliminary and Final Results

On April 1, 2005, the Department initiated a sunset review of the suspended antidumping duty investigation on ammonium nitrate from Russia pursuant to section 751(c) of the Tariff Act of 1930, as amended (“the Act”). See Notice of Initiation of Five-year (“Sunset”) Reviews, 70 FR 16800, (April 1, 2005). On the basis of notices of intent to participate filed on behalf of domestic interested parties and adequate substantive comments filed on behalf of domestic and respondent interested parties, the Department is conducting a full (240-day) review to determine whether termination of the suspension agreement on ammonium nitrate would lead to the continuation or recurrence of dumping. The Department's preliminary results of this review were scheduled for July 20, 2005 and its final results of this review were scheduled for November 29, 2005; however, the Department needs additional time for its analysis.

In accordance with section 751(c)(5)(B) of the Act, the Department may extend the period of time for making its preliminary determination in a sunset review by not more than 90 days, if it determines that the review is extraordinarily complicated. As set forth in section 751(c)(5)(C), the Department may, among other reasons, treat a sunset review as extraordinarily complicated if: (i) there are a large number of issues, (ii) the issues to be considered are complex or (iii) there are a large number of firms involved. In this proceeding, the Department has to consider complex issues related to the likelihood of continuation or recurrence of dumping, the appropriate margins likely to prevail if the suspension agreement is terminated, and developments during the administration of the suspension agreement. Therefore, the Department has determined, pursuant to section 751(c)(5)(C) of the Act, that the sunset review of the suspension agreement on ammonium nitrate from Russia is extraordinarily complicated and requires additional time for the Department to complete its analysis. Accordingly, the Department is extending the deadline in this proceeding, and, as a result, intends to issue the preliminary results of the sunset review of the suspension agreement on ammonium nitrate from Russia on or about October 18, 2005 and the final results of the sunset review by February 27, 2006.

This notice is issued and published in accordance with sections 751(c)(5)(B) and (C) of the Act.

Dated: July 19, 2005.

Joseph A. Spetrini,
Acting Assistant Secretary for Import Administration.

BILLING CODE 3510–DS–S

DEPARTMENT OF COMMERCE

International Trade Administration

[A–570–863]

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: July 26, 2005.

FOR FURTHER INFORMATION CONTACT: Anya Naschak at (202) 482–6375; AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

The Department has issued its antidumping duty questionnaire, and two supplementals to Xinan. The deadline for completion of the preliminary results is currently August 1, 2005.

Extension of Time Limits for Preliminary Results

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.214(i)(1) require the Department to issue the preliminary results of a new shipper review within 180 days after the date on which the new shipper review was initiated and final results of a review within 90 days after the date on which the preliminary results were issued. The Department may, however, extend the deadline for completion of the preliminary results of a new shipper review to 300 days if it determines that the case is extraordinarily complicated (19 CFR 351.214 (i)(2)). Pursuant to section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214 (i)(2), we determine that this review is extraordinarily complicated and that it is not practicable to complete this new shipper review within the current time limit. Specifically, the Department requires additional time to analyze all questionnaire responses and issues of affiliation, and to conduct verification of the responses submitted to date.

Accordingly, the Department is extending the time limit for the completion of the preliminary results by 45 days, to September 16, 2005, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2). The final results will, in turn, be due 90 days after the date of issuance of the preliminary results, unless extended.

Dated: July 18, 2005.

Susan H. Kuhbach,
Acting Deputy Assistant Secretary for Import Administration.
