GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS

GENERAL INFORMATION

Background.--On June 15, 1987, the Department of Commerce issued an antidumping duty order on imports of tapered roller bearings from China. On May 15, 1989, the Department of Commerce issued additional antidumping duty orders on imports of ball bearings from six countries (France, Germany, Italy, Japan, Singapore, and the United Kingdom) as well as on imports of spherical plain bearings from France. Please see the table below for a list of products and order dates. On June 1, 2005, the Commission instituted reviews pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time (70 F.R. 31531). If the Commission makes affirmative determinations, the orders will remain in place. If the Commission makes negative determinations, the Department of Commerce will revoke the orders.

Additional questionnaires will be supplied promptly upon request, or photocopies of the enclosed questionnaire(s) may be used. Address all correspondence to the United States International Trade Commission, Washington, DC 20436. Hearing-impaired individuals can obtain information regarding these reviews via the Commission's TDD terminal (202-205-1810).

Due date of questionnaire(s).--Return the completed questionnaire(s) to the United States International Trade Commission by no later than **February 13, 2006**. Although the enclosed postpaid envelope may be used to return the completed questionnaire, use of an overnight mail service may be necessary to ensure that your response actually reaches the Commission by **February 13, 2006**. If you do not use the enclosed envelope, please make sure the completed questionnaire is sent to the attention of **Debra Baker**. **Return only one copy of the completed questionnaire(s), but please keep a copy for your records so that you can refer to it if the Commission staff contacts you with any questions during the course of the reviews.**

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS--Continued

GENERAL INFORMATION--Continued

Service of questionnaire response(s).--In the event that your firm is a party to these reviews, you are required to serve a copy of the questionnaire(s), once completed, on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties is maintained by the Commission's Secretary and may be obtained by calling 202-205-1803. A certificate of service must accompany the copy of the completed questionnaire(s) you submit (see 19 CFR § 207.7).

Confidentiality.--The commercial and financial data furnished in response to the enclosed questionnaire(s) that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, nonnumerical characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--**The information submitted in the enclosed questionnaire(s) is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all your workpapers and supporting documents used in the preparation of the questionnaire response(s).**

Release of information.--The information provided by your firm in response to the questionnaire(s), as well as any other business proprietary information submitted by your firm to the Commission in connection with the reviews, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with these reviews or other import-injury investigations or reviews conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

INSTRUCTIONS

Answer all questions.--Do not leave any question or section blank unless a questionnaire expressly directs you to skip over certain questions or sections. If the answer to any question is "none," write "none." **If information is not readily available from your records in exactly the form requested, furnish carefully prepared estimates--designated as such by the letter "E"--and explain the basis of your estimates.** Answers to questions and any necessary comments or explanations should be supplied in the space provided or on separate sheets attached to the appropriate page of the questionnaire(s). If your firm is completing more than one questionnaire in connection with these reviews (i.e., a producer, importer, purchaser, and/or foreign producer questionnaire), you need not respond to duplicated questions in the questionnaires.

Consolidate all U.S. establishments.--Report the requested data for your establishment(s) located in the United States. **Firms operating more than one establishment should combine the data for all establishments into a single report.**

DEFINITIONS

Certain bearings.--For the purposes of these reviews, certain bearings include tapered roller bearings, ball bearings, and spherical plain bearings, as defined below.

Ball bearings and parts thereof (BBs).--For the purposes of these reviews, ball bearings and parts thereof include all bearings that employ balls as the rolling element, whether mounted or unmounted, and parts of ball bearings. Imports of these products are classified under the following categories: antifriction bearings, ball bearings with integral shafts, ball bearings (including radial ball bearings). The size or precision grade of a bearing does not influence whether the bearing is covered by one of the orders. These orders cover all the subject ball bearings and parts thereof (inner race, outer race, cage, rollers, balls, seals, shields, etc.) outlined above with certain limitations. With regard to finished parts, all such parts are included in the scope of the these orders. For unfinished parts, such parts are included if they have been heat-treated or heat treatment is not required to be performed on the part. Thus, the only unfinished parts that are not covered by these orders are those that will be subject to heat treatment after importation. The ultimate application of a bearing also does not influence whether the bearing is covered by the orders. Bearings designed for highly specialized applications are not excluded. Any of the subject ball bearings, regardless of whether they may ultimately be utilized in aircraft, automobiles, or other equipment, are within the scope of these orders.

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS--Continued

DEFINITIONS--Continued

Subsequent to the imposition of the antidumping duty orders, Commerce made a series of scope determinations that excluded some ball bearings from the orders; these products should not be reported as “certain ball bearings” within either the producer or importer questionnaire. Note that question II-13 of the importers’ questionnaire requests data for such excluded products. **For a listing of scope determinations that pertain to the orders, see “Table 1 - Certain bearings: Products excluded from the scope of the orders,” which is attached to this instruction booklet.**

Ball bearings and parts thereof are imported under the following HTS statistical reporting numbers 8482.10.1040 and 8482.10.1080 (ball bearings with integral shafts); 8482.10.5004, 8482.10.5008, 8482.10.5016, 8482.10.5024, 8482.10.5028, 8482.10.5032, 8482.10.5036, 8482.10.5044, 8482.10.5048, 8482.10.5052, 8482.10.5056, 8482.10.5060, 8482.10.5064, and 8482.10.5068 (ball bearings other than those with integral shafts); 8482.80.0020, 8482.80.0040, and 8482.80.0080 (combined ball/roller bearings and other miscellaneous bearings); 8482.91.0010 and 8482.91.0020 (bearing balls); 8482.99.0500 (inner or outer rings or races for ball bearings); 8482.99.3500 (other ball bearing parts); 8483.20.4040 (flange, take-up, cartridge, and hanger units incorporating ball bearings); and 8483.20.8040 (other housed bearings incorporating ball bearings). Some covered ball bearings could be imported under HTS provisions 3926.90.45, 4016.93.10, 4016.93.50, 6909.19.5010, 8431.20.00, 8431.39.0010, 8482.99.2580, 8482.99.6595, 8483.50.90, 8483.90.20, 8483.90.30, 8483.90.70, 8708.50.50, 8708.60.50, 8708.60.80, 8708.70.6060, 8708.93.30, 8708.93.60, 8708.93.75, 8708.99.06, 8708.99.31, 8708.99.4960, 8708.99.5800, 8708.99.8080, 8803.10.00, 8803.20.00, 8803.30.00, 8803.90.30, and 8803.90.90. **The second set of HTS subheadings is, however, believed to include substantial volumes of nonsubject merchandise and should be not used for the purposes of compiling data on the certain ball bearings that are covered by the antidumping duty orders (or “subject” product) unless your firm can isolate and report the volume of SUBJECT merchandise that your firm imported under these HTS subheadings.** The HTS numbers are provided for convenience and customs purposes; the written description remains dispositive of the scope of the orders.

Spherical plain bearings and parts thereof (SPBs).—For purposes of these reviews, spherical plain bearings employ a spherically shaped sliding element, whether mounted or unmounted, and include spherical plain rod ends. All finished parts of spherical plain bearings (inner race, outer race, cage, rollers, balls, seals, shields, etc. outlined above) are included within the scope of the review; however, unfinished parts are included only if (1) they have been heat-treated, or if (2) heat treatment is not required to be performed on the part. Thus, the only unfinished parts that are not covered by these orders are those that will be subject to heat treatment after importation. The size or precision grade of a bearing does not influence whether the bearing is covered by the orders. The ultimate application of a bearing also does not influence whether the bearing is

covered by the orders. Bearings designed for highly specialized applications are not excluded. Any of the subject spherical plain bearings, regardless of whether they may ultimately be utilized in aircraft, automobiles, or other equipment, are within the scope of these orders.

Subsequent to the imposition of the antidumping duty orders, Commerce made a series of scope determinations that excluded some spherical plain bearings from the orders; these products should not be reported as “certain spherical plain bearings” within either the producer or importer questionnaire. Note that question II-13 of the importers’ questionnaire requests data for such excluded products. **For a listing of scope determinations that pertain to the orders, see “Table 1 - Certain bearings: Products excluded from the scope of the orders,” which is attached to this instruction booklet.**

Spherical plain bearings and parts thereof are currently imported under HTS statistical reporting numbers 8483.30.8055 (rod end bearings with housing); 8483.30.8065 (plain shaft bearings with housing other than rod end bearings); and 8483.30.8070 (spherical plain shaft bearings without housing). Some covered spherical plain bearings could be imported under HTS subheadings 3926.90.45, 4016.93.10, 4016.93.50, 6909.19.5010, 8483.90.30, 8485.90.00, 8708.93.60, 8708.93.75, 8708.99.49, 8803.10.00, 8803.20.00, 8803.30.00, and 8803.90.90. **The second set of HTS subheadings is, however, believed to include substantial volumes of nonsubject merchandise and should be not used for the purposes of compiling data on the certain spherical plain bearings that are covered by the antidumping duty order (or “subject” product) unless your firm can isolate and report the volume of SUBJECT merchandise that your firm imported under these HTS subheadings.** The HTS numbers are provided for convenience and customs purposes; the written description remains dispositive of the scope of the orders.

Tapered roller bearings and parts thereof (TRBs).--For purposes of these reviews, tapered roller bearings cover the following: flange, take up cartridge, and hanger units incorporating tapered roller bearings; and tapered roller housings (except pillow blocks) incorporating tapered rollers, with or without spindles, whether or not for automotive use. The subject merchandise includes parts of tapered roller bearings and may be finished and/or unfinished.

Tapered roller bearings and parts thereof are currently imported under HTS statistical reporting numbers 8482.20.0020, 8482.20.0030, 8482.20.0040, 8482.20.0060, 8482.20.0070, and 8482.20.0080 (tapered roller bearings, including cone and tapered roller assemblies); 8482.91.0050 (tapered rollers); 8482.99.1540 and 8482.99.1580 (inner or outer rings or races for tapered roller bearings); 8483.20.4080 (flange, take-up, cartridge, and hanger units incorporating roller bearings); 8483.20.8080 (other housed bearings incorporating roller bearings); and 8483.90.7000 (parts of subheading 8483.20). Some covered tapered roller bearings could be

imported under HTS provisions 8483.30.8020, 8483.90.20, 8483.90.30, 8483.90.70, 8483.90.80, 8708.99.8015 and 8708.99.8080. **The second set of HTS subheadings (along with the earlier cited 8483.20.4080, 8483.20.8080, and 8483.90.7000) are, however, believed to include substantial volumes of nonsubject merchandise and should be not used for the purposes of compiling data on the certain tapered roller bearings that are covered by the antidumping duty order (or “subject” product) unless your firm can isolate and report the volume of SUBJECT merchandise that your firm imported under these HTS subheadings.** The HTS numbers are provided for convenience and customs purposes; the written description remains dispositive of the scope of the order.

Firm.--An individual proprietorship, partnership, joint venture, association, corporation (including any subsidiary corporation), business trust, cooperative, trustee in bankruptcy, or receiver under decree of any court.

Related firm.--A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

Establishment.--Each facility of a firm in the United States involved in the production, importation, and/or purchase of certain bearings (as defined above), including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

United States.--For purposes of these reviews, the 50 States, Puerto Rico, the U.S. Virgin Islands, and the District of Columbia.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing certain bearings (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Imports.--Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

Import quantities.--Quantities reported should be net of returns.

Import values.--Values reported should be landed, duty-paid but not including antidumping and/or countervailing duties, at the U.S. port of entry, including ocean freight and

DEFINITIONS--Continued

insurance costs, brokerage charges, and normal import duties (i.e., including all charges except inland freight in the United States and antidumping and/or countervailing duties).

Purchaser.--Any person or firm engaged, either directly or through a parent company or subsidiary, in purchasing certain bearings (as defined above) from another firm that produces, imports, or otherwise distributes certain bearings. A retail firm that is the importer of record may be considered a purchaser.

Purchases.--Purchases from all sources, NOT including direct imports from foreign producers (which should be reported in an importer questionnaire).

Purchase quantities.--Quantities reported should be net of returns.

Purchase values.--Values reported should be net values (i.e., gross purchase values less all discounts, allowances, rebates, billing adjustments, and the value of returned goods), delivered to your U.S. receiving point.

Shipments.--Shipments of products produced in or imported by your U.S. establishment(s). Include shipments to the contracting firm of product produced by your firm under a toll agreement.

Shipment quantities.--Quantities reported should be net of returns.

Shipment values.--Values reported should be net values (i.e., gross sales values less all discounts, allowances, rebates, billing adjustments, prepaid freight, and the value of returned goods), f.o.b. your U.S. point of shipment. The value of domestic shipments to the contracting firm under a toll agreement is the conversion fee (including profit).

Types of shipments:

U.S. shipments.--Commercial shipments, internal consumption, and transfers to related firms within the United States.

Commercial shipments.--Shipments, other than internal consumption and transfers to related firms, within the United States.

Internal consumption.--Product consumed internally by your firm.

Transfers to related firms.--Shipments made to related domestic firms.

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS--Continued

DEFINITIONS--Continued

Export shipments.--Shipments to destinations outside the United States, including shipments to related firms.

Inventories.--Finished goods inventory, not raw materials or work-in-progress.

The following definitions apply only to the PRODUCER QUESTIONNAIRE.

Average production capacity.--The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

Toll agreement.--Agreement between two firms whereby the first firm furnishes the raw materials and the second firm uses the raw materials to produce a product that it then returns to the first firm with a charge for processing costs, overhead, etc.

Production.--All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

PRWs.--Production and related workers, including working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations.

Average number employed.--Add the number of employees, both full-time and part-time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12.

Hours worked.--Include time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight-time hours.

Wages paid.--Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

Fiscal year.--The 12-month period between settlement of your firm's financial accounts.

GENERAL INFORMATION, INSTRUCTIONS, AND DEFINITIONS--Continued

DEFINITIONS--Continued

Continued Dumping and Subsidy Offset Act (Byrd Amendment) funds received.--Funds disbursed by the Bureau of Customs and Border Protection under the Continued Dumping and Subsidy Offset Act of 2000 (the “Byrd Amendment”). The Byrd Amendment provides for the annual distribution of the duties collected pursuant to antidumping and countervailing duty orders. The distribution is available to “affected domestic producers for qualifying expenditures.”

Purchases other than direct imports.--Purchases from U.S. producers, U.S. importers, and other U.S. sources.

ADDENDUM TO THE DEFINITIONS

Pending, <i>see</i> 61 FR 40194, Aug. 1, 1996	Germany	Enkotec Co., Inc. - "Main bearings" imported for incorporation into Enkotec Rotary Nail Machine are slewing rings and, therefore, outside the scope of the order
2/10/97 <i>see</i> 62 FR 30569, June 4, 1997	Japan Singapore	Rockwell International Corp. - Automotive components, known variously as a cushion suspension units, cushion assembly units, or center bearing assemblies
12/14/99, <i>see</i> 65 FR 41957, July 7, 2000	Japan	Sanden International (USA) - Certain orbiting and fixed races, and orbiting and fixed rings used in a "rotation prevention device"
1/19/99, <i>see</i> 65 FR 41957, July 7, 2000	Japan	Nissei Sangyo America, Ltd. - Certain vacuum nozzle assembly, designated as part 630-063-2316
2/26/99, <i>see</i> 65 FR 41957, July 7, 2000	Germany	Holland Hitch, Inc. - "Turntable bearing" (slewing rings, gearless slewing rings, or slewing bearings)
3/13/00, <i>see</i> 65 FR 41957, July 7, 2000	Japan	Isuzu Motors America, Inc. - Fan center assembly, designed as part 8-97226-2892 and imported primarily for use in a V-8 diesel engine
5/1/00, <i>see</i> 65 FR 52409, Aug. 29, 2000	Japan	NTN Bearing Corp. of America - EM Coupling, a "rotation prevention device" and ring plates used in the EM Coupling
5/26/00, <i>see</i> 65 FR 52409, Aug. 29, 2000	Japan	Subaru-Isuzu Automotive, Inc., - Fan bracket assembly, designated as part 8971486750 (prior to Oct. 1, 1999) and as part 8972317180 (from Oct. 1, 1999 onward) and used in the cooling system of six-cylinder vehicles
2/12/01, <i>see</i> 68 FR 7772, Feb. 18, 2003	Japan	Sanden International (USA) - Parts of EM Coupling, identified as an orbiting EM plate and a fixed EM plate
7/9/01, <i>see</i> 68 FR 7772, Feb. 18, 2003	Japan	NTN Corp. and NTN Bearing Corp. of America, NTN Driftshaft, Inc., NTN-Bower Corp., and NTN-BCA Corp. - Turntable Slewing Bearings used in CT scan machines
8/9/01, <i>see</i> 68 FR 7772, Feb. 18, 2003	France	Saint-Gobain Ceramics and Plastics, Inc. - Ceramic ball blanks used in the production of balls
10/1/01, <i>see</i> 68 FR 7772, Feb. 18, 2003	Germany	TEMCO Textilmaschinenkomponenten GmbH and Petree & Stoudt Associates, Inc. - Certain textile machinery components

¹ List does not include those products that Commerce determined to be covered by the antidumping duty orders.

² All scope determinations apply to the orders for "antifriction bearings (other than tapered rollers) bearings and parts thereof from France, Germany, Italy, Japan, Singapore, and the United Kingdom."
