

UNITED STATES INTERNATIONAL TRADE COMMISSION

WASHINGTON, DC 20436

November 30, 2010

To Whom It May Concern:

The enclosed questionnaire pertains to the United States International Trade Commission's review investigations concerning hot-rolled steel from Brazil, Japan, and Russia. The reviews are being conducted under the provisions of sections 701 and 731 of the Tariff Act of 1930.

In these reviews the Commission must determine whether revocation of the countervailing duty order on hot-rolled steel from Brazil, the antidumping duty orders on hot-rolled steel from Brazil and Japan, and/or the suspended investigation on hot-rolled steel from Russia would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. A copy of the Commission's notice of these reviews is enclosed and has been published in the *Federal Register*.

The business proprietary information you supply in this questionnaire or in connection therewith will be so treated by the Commission and will not be disclosed except as may be required by law. Your response will be consolidated with the responses of other firms and will form much of the statistical base for the Commission's determinations. This questionnaire has been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible.

Please return the completed questionnaire to the Commission by the date specified in each section of the questionnaire. **The deadline for submitting questionnaire responses is January 10, 2011 with the exception of certain data pertaining to calendar year 2010 data, which is due in the form of a supplemental response by February 7, 2011.** If you have any questions concerning the questionnaire or other matters related to the reviews, please contact **Craig Thomsen** (craig.thomsen@usitc.gov, 202-205-3226) of the Commission's staff. Correspondence may be sent to the above address or via FAX to 202-205-2340.

Sincerely,

Catherine DeFilippo
Director
