

Maximizing Visitor Opportunities (Alternative C), and the NPS Preferred Alternative (Alternative D).

Alternative A: (No Action): This alternative would continue current management of vehicle use on the park road. In addition to a seasonal limit of 10,512 vehicles past mile 15, there would continue to be specific seasonal and daily limits to tour buses, shuttle buses, inholder traffic, professional photographer vehicles, NPS administrative vehicles and other categories of vehicles.

Alternative B: This alternative would use an adaptive management framework for vehicle use based on indicators and standards for visitor experiences and resource protection. While adhering to these standards, management would promote maximized seating on all transit and tour vehicles to offer the largest number of visitors the opportunity to travel the park road. This adaptive management framework would include options for reducing or scheduling non-bus traffic to allow for additional visitor use on transit and tour vehicles.

Alternative C: This alternative would use an adaptive management framework for vehicle use based on indicators and standards for visitor experiences and resource protection. While adhering to these standards, management would promote a wide variety of opportunities that would include brief experiences in the park's entrance area, short visits along segments of the park road, special interest tours, and multi-day experiences in the park's backcountry. This adaptive management framework would include options for reducing or scheduling non-bus traffic to allow for additional visitor use on transit and tour vehicles.

Alternative D: The NPS preferred alternative, with an adaptive management framework, would provide a high quality visitor experience; protect wilderness resource values, scenic values, wildlife, and other park resources; and maintain the unique character of the park road. While managing to meet standards for desired conditions, a maximum daily capacity would also be used to protect park resources and values. The daily capacity would apply to all vehicles traveling west of the Savage River check station (mile 15).

SUPPLEMENTARY INFORMATION:

Background. On September 7, 2001, the Department of Commerce ("Commerce") issued antidumping duty orders on imports of steel concrete reinforcing bar from Belarus, China, Indonesia, Latvia, Moldova, Poland, and Ukraine (66 FR 46777). Following the five-year reviews by Commerce and the Commission, effective August 9, 2007, Commerce issued a continuation of the antidumping duty orders on imports of steel concrete reinforcing bar from Belarus, China, Indonesia, Latvia, Moldova, Poland, and Ukraine (72 FR 44830). The Commission is now conducting second reviews to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full reviews or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions. The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by Commerce.

(2) The *Subject Countries* in these reviews are Belarus, China, Indonesia, Latvia, Moldova, Poland, and Ukraine.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations and its full first five-year reviews, the Commission defined the *Domestic Like Product* as certain steel concrete reinforcing bar, coextensive

with the scope of the *Subject Merchandise*.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations, three Commissioners based their material injury analysis on a national industry consisting of all producers of steel concrete reinforcing bar and three Commissioners found a regional industry consisting of all domestic production facilities producing the *Domestic Like Product* in the region consisting of the 30 contiguous states from New England to Texas and from the Gulf of Mexico north on both sides of the Mississippi up to the Canadian border, plus the District of Columbia and Puerto Rico. In its full first five-year review determinations, the Commission found that appropriate circumstances did not exist to conduct a regional industry analysis and defined the *Domestic Industry* to consist of all domestic producers of steel concrete reinforcing bar. For purposes of this notice, you should report *Domestic Industry* information based on the Commission's most recent determination defining the *Domestic Industry* to consist of all domestic producers of steel concrete reinforcing bar.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the reviews and public service list. Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the reviews as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the reviews.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation. The Commission's designated agency ethics

official has advised that a five-year review is not considered the "same particular matter" as the corresponding underlying original investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 73 FR 24609 (May 5, 2008). This advice was developed in consultation with the Office of Government Ethics. Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Carol McCue Verratti, Deputy Agency Ethics Official, at 202-205-3088.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list. Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in these reviews available to authorized applicants under the APO issued in the reviews, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the reviews. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification. Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with these reviews must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions. Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is August 1, 2012. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as

specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct expedited or full reviews. The deadline for filing such comments is September 14, 2012. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. Please be aware that the Commission's rules with respect to electronic filing have been amended. The amendments took effect on November 7, 2011. See 76 FR 61937 (Oct. 6, 2011) and the newly revised Commission's Handbook on E-Filing, available on the Commission's Web site at <http://edis.usitc.gov>. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the reviews must be served on all other parties to the reviews (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the reviews you do not need to serve your response).

Inability to provide requested information. Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determinations in the reviews.

Information To Be Provided in Response to this Notice of Institution: If you are a domestic producer, union/worker group, or trade/business association; import/export *Subject Merchandise* from more than one *Subject Country*; or produce *Subject Merchandise* in more than one *Subject Country*, you may file a single response. Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>). The public record for these reviews may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background. On December 10, 2001, the Department of Commerce ("Commerce") issued a countervailing duty order on imports of honey from Argentina (66 FR 63673) and antidumping duty orders on imports of honey from Argentina and China (66 FR 63672, 63670). Following the five-year reviews by Commerce and the Commission, effective August 2, 2007, Commerce issued a continuation of the countervailing duty order on honey from Argentina and the antidumping duty orders on honey from Argentina and China (72 FR 42384). The Commission is now conducting second reviews to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct full or expedited reviews. The Commission's determinations in any expedited reviews will be based on the facts available, which may include information provided in response to this notice.

Definitions. The following definitions apply to these reviews:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by Commerce.

(2) The *Subject Countries* in these reviews are Argentina and China.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determinations and its expedited first five-year review determinations, the Commission found that there was one *Domestic Like Product* consisting of all honey, consistent with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determinations and its expedited first five-year review determinations, the Commission found a single *Domestic Industry* consisting of the U.S. producers of honey, both raw and processed. The Commission also found that packers, who produce processed honey, as well as beekeepers, who produce raw honey, should be treated as U.S. producers.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

Participation in the reviews and public service list. Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the reviews as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the reviews.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation. The Commission's designated agency ethics official has advised that a five-year review is not considered the "same particular matter" as the corresponding underlying original investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule
