SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on October 3, 2013, based on a complaint filed by Draeger Medical Systems, Inc., of Telford, Pennsylvania ("Draeger"). 78 FR 61383 (Oct. 3, 2013). The complaint alleged violations of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain thermal support devices for infants, infant incubators, infant warmers, and components thereof by reason of infringement of certain claims of U.S. Patent Nos. 6,483,080 and 7,335,157. On February 14, 2014, the ALJ issued the subject ID granting the motion to terminate the investigation. The ALJ determined that the parties stated there are no agreements between the parties concerning the subject matter of this investigation other than the settlement agreement between Draeger and Atom. The ALJ further determined that the parties filed a public version of the settlement agreement in accordance with the Commission's rules. The ALJ also determined that there is no indication that termination of this investigation based on the settlement agreement would have an adverse

impact on the public interest. No petitions for review of the ID were filed.

The Commission has determined not to review the ID. The investigation is terminated.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in Part 210 of the Commission's Rules of Practice and Procedure (19 CFR Part 210).
