**SUPPLEMENTARY INFORMATION:**

**Background**

The Department's procedures for the conduct of Sunset Reviews are set forth in its *Procedures for Conducting Five-Year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13516 (March 20, 1998) and 70 FR 62061 (October 28, 2005). Guidance on methodological or analytical issues relevant to the Department's conduct of Sunset Reviews is set forth in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings; Final Modification*, 77 FR 8101 (February 14, 2012).

**Filing Information**

As a courtesy, we are making information related to sunset

proceedings, including copies of the pertinent statute and Department's regulations, the Department's schedule

for Sunset Reviews, a listing of past revocations and continuations, and current service lists, available to the

public on the Department's Web site at the following address: "<http://enforcement.trade.gov/sunset/>." All submissions in these Sunset Reviews must be filed in accordance with the Department's regulations regarding format, translation, and service of documents. These rules, including electronic filing requirements via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("IA ACCESS"), can be found at 19 CFR 351.303.<sup>1</sup>

This notice serves as a reminder that any party submitting factual information in an AD/CVD proceeding must certify to the accuracy and completeness of that information.<sup>2</sup> Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives in all AD/CVD investigations or proceedings initiated on or after August 16, 2013.<sup>3</sup> The formats for the revised certifications are provided at the end of the *Final Rule*. The Department intends to reject factual submissions if the submitting party does not comply with the revised certification requirements.

On April 10, 2013, the Department published *Definition of Factual Information and Time Limits for Submission of Factual Information: Final Rule*, 78 FR 21246 (April 10, 2013), which modified two regulations related to antidumping and countervailing duty proceedings: The definition of factual information (19 CFR 351.102(b)(21)), and the time limits for the submission of factual information (19 CFR 351.301). The final rule identifies five categories of factual information in 19 CFR 351.102(b)(21), which are summarized as follows: (i) Evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by the Department; and (v) evidence other than factual information described in (i)–(iv). The final rule requires any party, when submitting factual information, to specify under which subsection of 19 CFR

351.102(b)(21) the information is being submitted and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct. The final rule also modified 19 CFR 351.301 so that, rather than providing general time limits, there are specific time limits based on the type of factual information being submitted. These modifications are effective for all segments initiated on or after May 10, 2013. Please review the final rule, available at <http://enforcement.trade.gov/frn/2013/1304frn/2013-08227.txt>, prior to submitting factual information in this segment. To the extent that other regulations govern the submission of factual information in a segment (such as 19 CFR 351.218), these time limits will continue to be applied.

On September 20, 2013, the Department modified its regulation concerning the extension of time limits for submissions in antidumping and countervailing duty proceedings: *Extension of Time Limits*, 78 FR 57790 (September 20, 2013). The modification clarifies that parties may request an extension of time limits before a time limit established under part 351 of the Department's regulations expires, or as otherwise specified by the Secretary. In general, an extension request will be considered untimely if it is filed after the time limit established under part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. on the due date. Under certain circumstances, the Department may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, the Department will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This modification also requires that an extension request must be made in a separate, stand-alone submission, and clarifies the circumstances under which the Department will grant untimely-filed requests for the extension of time limits. These modifications are effective for all segments initiated on or after October 21, 2013. Please review the final rule, available at <http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to

submitting factual information in these segments.

Pursuant to 19 CFR 351.103(d), the Department will maintain and make available a service list for these proceedings. To facilitate the timely preparation of the service list(s), it is requested that those seeking recognition as interested parties to a proceeding contact the Department in writing within 10 days of the publication of the Notice of Initiation.

Because deadlines in Sunset Reviews can be very short, we urge interested parties to apply for access to proprietary information under administrative protective order ("APO") immediately following publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The Department's regulations on submission of proprietary information and eligibility to receive access to business proprietary information under APO can be found at 19 CFR 351.304–306.

#### Information Required From Interested Parties

Domestic interested parties, as defined in section 771(9)(C), (D), (E), (F), and (G) of the Act and 19 CFR 351.102(b), wishing to participate in a Sunset Review must respond not later than 15 days after the date of publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with the Department's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, the Department will automatically revoke the order without further review.<sup>4</sup>

If we receive an order-specific notice of intent to participate from a domestic interested party, the Department's regulations provide that *all parties* wishing to participate in a Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements differ for respondent and domestic parties. Also, note that the Department's information requirements are distinct from the Commission's information requirements. Please consult the Department's regulations for information regarding the Department's

### National Oceanic and Atmospheric Administration

#### Notice of Changes in the Development and Distribution of NOAA Nautical Charts and Publications

**AGENCY:** Office of Coast Survey, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

**ACTION:** Notice to advise the public of changes to the printing and distribution of NOAA's nautical charts, including digital charts, and to seek public comment.

**SUMMARY:** NOAA is making significant changes to nautical chart printing and distribution, and is seeking public comment. This notice informs the public of the Office of Coast Survey's approach to expanding navigation products and services, and explains how mariners may continue to access the nautical charts necessary for safe navigation of U.S. waters and to meet regulatory carriage requirements.

**DATES:** Written, faxed, or emailed comments are due by midnight, February 3, 2014.

**ADDRESSES:** Submit comments by mail to Director, Office of Coast Survey, 1315 East-West Highway #6216, Silver Spring, MD 20910; or by using the online NOAA Nautical Inquiry & Comment System at <http://nauticalcharts.noaa.gov/inquiry>.

**FOR FURTHER INFORMATION CONTACT:** Visit the Web site (<http://nauticalcharts.noaa.gov>) or contact the Office of Coast Survey at the following address: NOAA, National Ocean Service, Office of Coast Survey, Marine Chart Division, 1315 East-West Highway, Silver Spring, MD 20910-32821, U.S.A.; telephone 888-990-6622;

fax 301-713-4516; email [anthony.r.klemm@noaa.gov](mailto:anthony.r.klemm@noaa.gov).

**SUPPLEMENTARY INFORMATION:** NOAA is privatizing the printing of nautical charts. Regulations that govern nautical chart and publication carriage requirements remain unchanged. These regulations are found in 33 CFR 164 and Title 46 of the U.S. Code of Federal Regulations (CFR).

After April 13, 2014, NOAA-certified Print-on-Demand (POD) charts will be the only official source available for mariners to obtain NOAA paper nautical charts. NOAA-certified POD charts, available since 1999 through certified POD partners, are official paper nautical charts that are up-to-date at the time of printing. These charts are considered "published" by NOAA's National Ocean Service, and therefore meet chart carriage requirements.

POD charts are currently available from NOAA commercial partners OceanGrafix (<http://www.oceangrafix.com>) and East View Geospatial (<http://www.geospatial.com>). If you are interested in becoming a POD chart provider, learn more at our Web site at <http://www.nauticalcharts.noaa.gov/pod/PODpartner.htm>.

NOAA is also making nautical chart information available digitally in three new ways, and is seeking feedback on these three changes.

1. For a three-month trial period (October 22, 2013 to January 22, 2014), NOAA is providing free digital chart image files in PDF (Portable Document Format) file format. The free PDF chart files are available for public use. The digital charts are also available as NOAA-certified Print-on-Demand charts. NOAA will evaluate the usage and user feedback to decide whether to continue providing public access to PDF nautical charts. Please note that the free PDF charts do not meet chart carriage requirements under federal regulations unless printed to NOAA quality standards by a NOAA-certified POD partner. Download PDF charts at [www.nauticalcharts.noaa.gov/pdfcharts](http://www.nauticalcharts.noaa.gov/pdfcharts).

2. NOAA's Office of Coast Survey is providing high-resolution NOAA raster navigational charts (NOAA RNC®) for public testing and evaluation. The Office of Coast Survey is upgrading the image quality from the current 254 DPI to 400 DPI to improve clarity, readability, and aesthetics of this digital charting product. The evaluation dataset, which is kept up-to-date like the current RNCs, is available for download for Tampa Bay, Detroit, Long Island Sound, and Puget Sound. If no problems are identified or left

unresolved, Coast Survey intends to upgrade all RNCs to 400 dpi by February 2014. Software product developers and RNC users are invited to provide comments or questions regarding this new service. Download the evaluation datasets at [www.charts.noaa.gov/RNCs\\_400/](http://www.charts.noaa.gov/RNCs_400/).

3. An online seamless viewer of NOAA's electronic navigational charts (NOAA ENC®) is available for public use at the Web site <http://www.nauticalcharts.noaa.gov/ENCOOnline/>. NOAA ENC Online optimizes the viewing of the entire ENC suite, using the display rules defined by the International Hydrographic Organization's S-52 standards, *Specifications for Chart Content and Display Aspects of ECDIS*. The public is invited to provide comments or questions regarding this new service.

**Authority:** 33 U.S.C. Chapter 17, Coast and Geodetic Survey Act of 1947.

Dated: December 16, 2013.
