

Investigation Nos. 701-TA-502 and 731-TA-1227-1228 (Final): Steel Concrete Reinforcing Bar from Mexico and Turkey

The United States International Trade Commission is investigating steel concrete reinforcing bar (“rebar”) under the provisions of sections 701 and 731 of the Tariff Act of 1930.

In this proceeding, the Commission must determine whether an industry in the United States is materially injured or is threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports from Mexico and Turkey of rebar that are alleged to be sold in the United States at less than fair value, and by reason of imports from Turkey that are alleged to be subsidized by the Government of Turkey.

Your firm has been identified as a possible foreign producer/exporter of rebar or deformed steel wire. To access documents for these investigations, please go to the website www.usitc.gov, place your cursor on “import injury” located at the top of the page which will reveal a drop-down menu and click on the hyperlink “AD/CVD-Active”, under the heading “Final Phase Investigations”, click on the link “Steel Concrete Reinforcing Bar from Mexico and Turkey” which will take you to the website containing the questionnaires, instructions, and other relevant documents for these investigations.
