INTERNATIONAL TRADE COMMISSION
[Investigation Nos. 701–TA–531–532 and 731–TA–1270–1273 (Final)]
Polyethylene Terephthalate Resin From Canada, China, India, and Oman
Determinations
On the basis of the record 1 developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of polyethylene terephthalate (“PET”) resin, provided for in subheading 3907.60.00 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”) with respect to Canada, China, India, and Oman and have been found by Commerce to be subsidized by the governments of China and India.2
Background
The Commission, pursuant to sections 705(b) and 735(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b) and 19 U.S.C. 1673d(b)), instituted these investigations effective March 10, 2015.

1 The record is defined in sec. 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).
2 All six Commissioners voted in the affirmative. The Commission also finds that imports subject to Commerce’s affirmative critical circumstances determinations are not likely to undermine seriously the remedial effect of the countervailing and antidumping duty orders on PET resin from India.
