

in the Public Health Data Communication Infrastructure System Fund plus the provision for the operating balance less any Greenbook costs (*i.e.*, costs of USDA support services prorated to the service component for which fees are charged) that are not related to food inspection by the previous fiscal year's total hours (regular, overtime, and holiday) worked across all funds, plus the quotient multiplied by the calendar year's percentage of inflation.

The calculation for the 2021 overhead rate per hour per program employee is:  
 [FY 2020 Total Overhead/(Total Regular hours + Total Overtime hours + Total Holiday hours) (\$ 390,719,959/17,848,090)] = \$21.89 + (\$21.89 \* 2.3% (2020 Inflation) = \$22.39.  
*Allowance for Bad Debt Rate* = Previous fiscal year's total allowance for bad debt (for example, debt owed that is not paid in full by plants and establishments that declare bankruptcy) divided by previous fiscal year's total

hours (regular, overtime, and holiday) worked.

The 2021 calculation for bad debt rate per hour per program employee is:

[FY 2020 Total Bad Debt/(Total Regular hours + Total Overtime hours + Total Holiday hours) = (\$49,837/17,848,090)] = \$0.00.

2021 Electronic Export Application Fee The 2021 Electronic Export Application Fee:

Labor Cost (\$560,901.60+ (\$337,369))+ IT Cost (\$1,414,285.60+\$0)  
 576,192  
 = \$4.01

As published in the 2016 final rule, the Electronic Export Application Fee Formula is:

Labor Cost (Technical Support + Export Library Maintenance) + IT Cost (Ongoing Operations and Maintenance + eAuthentication)

Number of Export Applications

The 2021 electronic export application fee remains unchanged since 2019. FSIS stated in the 2016 final rule (81 FR 42225) and the 2017 **Federal Register** notice (FR 82 42056) that it would update and recalculate the fee based on the best available estimates for costs and number of applications; however, the number of export applications (the denominator in the formula) cannot be accurately assessed until a majority of countries are included in the export component. Therefore, because a majority of countries are not yet included in the PHIS Export component, the cost estimates and projected export applications in the final rule remain the best estimate for 2021, leaving the electronic export application fee unchanged.

**Additional Public Notification**

FSIS will make copies of this **Federal Register** publication available through the FSIS *Constituent Update*, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The *Constituent Update* is available on the FSIS web page. Through the web page, FSIS can provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides automatic and customized access to selected food safety news and information. This service is available at: <http://www.fsis.usda.gov/subscribe>.

Options range from recalls to export information, regulations, directives, and notices. Customers can add or delete subscriptions themselves and have the option to password protect their accounts.

**USDA Non-Discrimination Statement**

No agency, officer, or employee of the USDA shall, on the grounds of race, color, national origin, religion, sex, gender identity, sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, or political beliefs, exclude from participation in, deny the benefits of, or subject to discrimination any person in the United States under any program or activity conducted by the USDA.

**4th Tier Cigarettes From the Republic of Korea: Final Affirmative Determination of Sales at Less Than Fair Value, and Final Negative Determination of Critical Circumstances**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) determines that 4th tier cigarettes from the Republic of Korea (Korea) are being, or are likely to be, sold in the United States at less than fair value (LTFV) during the period of investigation (POI), October 1, 2018 through September 30, 2019. The final weighted-average dumping margins are listed below in the section entitled "Final Determination."

**DATES:** Applicable December 11, 2020.

**SUPPLEMENTARY INFORMATION:**

**Background**

On July 22, 2020, Commerce published the *Preliminary Determination* in this investigation, and invited interested parties to comment on our findings.<sup>1</sup> The petitioner in this investigation is the Coalition Against Korean Cigarettes.<sup>2</sup> The mandatory respondent subject to this investigation is KT&G Corporation (KT&G). A summary of the events that occurred since Commerce published the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.<sup>3</sup>

The Issues and Decision Memorandum is a public document and is available electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

**Period of Investigation**

The POI is October 1, 2018 through September 30, 2019.

**Scope of the Investigation**

The products covered by this investigation are 4th tier cigarettes from Korea. For a complete description of the scope of this investigation, see Appendix I.

**Analysis of Comments Received**

All issues raised in the case briefs and rebuttal briefs submitted by interested parties in this proceeding are discussed in the Issues and Decision Memorandum. A list of the issues raised

by parties and responded to by Commerce in the Issues and Decision Memorandum is attached to this notice as Appendix II.

**Verification**

Commerce normally verifies information relied upon in making its final determination, pursuant to section 782(i)(1) of the Tariff Act of 1930 amended (the Act). However, during the course of this investigation, we were unable to conduct verification.<sup>4</sup> Pursuant to section 776(a)(2)(D) of the Act, in situations where information has been provided but the information cannot be verified, Commerce will use “facts otherwise available” in reaching the applicable determination. Accordingly, we relied on facts available in making our final determination.

**Changes Since the Preliminary Determination**

Based on our analysis of the comments received, we made no changes to the scope of the merchandise under investigation but made one change to the margin calculation for KT&G since the *Preliminary Determination*. For a discussion of this change, see the Issues and Decision Memorandum.

**All-Others Rate**

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other producers and exporters not individually investigated shall be equal to the weighted average of the estimated weighted-average dumping margins established for individually investigated exporters and producers, excluding any margins that are zero, *de minimis*, or any margins determined entirely under section 776 of the Act.

Commerce calculated a weighted-average dumping margin for KT&G, the only individually examined exporter/producer in this investigation, that is above *de minimis*. We have assigned KT&G’s margin to all other producers and exporters, pursuant to section 735(c)(5)(A) of the Act.

**Final Determination**

The final weighted-average dumping margins are as follows:

Exporter/producer	Weighted-average dumping margin (percent)
KT&G Corporation .....	5.48

<sup>4</sup> See Memorandum, “Cancellation of Verification,” dated October 21, 2020.

Exporter/producer	Weighted-average dumping margin (percent)
All Others .....	5.48

**Disclosure**

We intend to disclose to interested parties the calculations and analysis performed in this final determination within five days of any public announcement or, if there is no public announcement, within five days of the date of the publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

**Continuation of Suspension of Liquidation**

In accordance with section 735(c)(1)(B) of the Act, we will instruct U.S. Customs and Border Protection (CBP) to continue the suspension of liquidation of all appropriate entries of 4th tier cigarettes, as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption on or after July 22, 2020, the date of publication of the *Preliminary Determination* of this investigation in the **Federal Register**.

Further, Commerce will instruct CBP to require a cash deposit equal to the amount by which the normal value exceeds the U.S. price as follows: (1) For KT&G, the cash deposit rate will be equal to the weighted-average dumping margin determined in this final determination; (2) if KT&G is the producer, but not the exporter, then the cash deposit rate will be equal 5.48 percent; and (3) the cash deposit rate for all other producers and exporters will be 5.48 percent. These suspension of liquidation instructions will remain in effect until further notice.

**International Trade Commission Notification**

In accordance with section 735(d) of the Act, we will notify the International Trade Commission (ITC) of the final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports, or sales (or the likelihood of sales) for importation of 4th tier cigarettes no later than 45 days after our final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding

<sup>2</sup> The members of the Coalition Against Korean Cigarettes are Xcaliber International and Cheyenne International.

<sup>3</sup> See Memorandum, “Issues and Decision Memorandum for the Final Affirmative Determination in the Less-Than-Fair-Value Investigation of 4th Tier Cigarettes from the Republic of Korea,” dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

will be terminated, and all cash deposits will be refunded. If the ITC determines that material injury or threat of material injury does exist, Commerce will issue an antidumping duty order directing CBP to assess, upon further instruction by Commerce, antidumping duties on all imports of the subject merchandise, entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

#### Notification Regarding Administrative Protective Order

This notice serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a violation subject to sanction.

#### Notification to Interested Parties

We are issuing and publishing this determination and notice in accordance with sections 735(d) and 777(i) of the Act and 19 CFR 351.210(c).

Dated: December 4, 2020.

#### Appendix I

##### Scope of the Investigation

The merchandise covered by this investigation is certain tobacco cigarettes, commonly referred to as “4th tier cigarettes.” The subject cigarettes are composed of a tobacco blend rolled in paper, have a nominal minimum total length of 7.0 cm but do not exceed 12.0 cm in total nominal length, and have a nominal diameter of less than 1.3 cm. These sizes of cigarettes are frequently referred to as “Kings” and “100’s,” but subject merchandise that meets the physical description of the scope is included regardless of the marketing description of the size of the cigarettes. Subject merchandise typically has a tobacco blend that consists of 10% or more tobacco stems.

Subject merchandise is typically sold in packs of 20 cigarettes per pack which generally includes the marking “20 Class A Cigarettes” but are included regardless of packaging. 4th tier cigarette packages are typically sold in boxes without a rounded internal corner and without embossed aluminum foil inside the pack.

Both menthol and non-menthol cigarettes and cigarettes with or without a filter attached are covered by the scope of this investigation.

Merchandise covered by this investigation is currently classified in the Harmonized

Tariff Schedule of the United States (HTSUS) under subheading 2402.20.8000. This HTSUS subheading is provided for convenience and customs purposes; the written description of the scope of the investigation is dispositive.
