within the United States after importation of certain photovoltaic cells and products containing same by reason of infringement of certain claims of U.S. Patent No. 9,893,215. The complaint further alleges the existence of a domestic industry. The Commission’s notice of investigation named several respondents. The Office of Unfair Import Investigations is participating in the investigation.

On January 23, 2020, complainants filed an unopposed amended motion to amend the complaint and NOI to substitute HSC for HQC–AMC as a complainant. The subject ID (Order No. 38) issued on January 30, 2020, granting complainants’ motion to amend the complaint and NOI. The ID finds that good cause exists to grant the motion to amend under Commission Rule 210.14(b)(1) (19 CFR 210.14(b)(1)) because complainants’ motion is unopposed. No petitions for review were filed.

Lisa Barton,
Secretary to the Commission.

Vertical Shaft Engines From China: Determinations

On the basis of the record 1 developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of subsidized imports of vertical shaft engines from China that are sold at the retail level, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On January 15, 2020, the Coalition of American Vertical Engine Producers, 3 filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized imports of vertical shaft engines from China and LTFV imports of vertical shaft engines from China. Accordingly, effective January 15, 2020, the Commission instituted countervailing duty investigation No. 701–TA–637 and antidumping duty investigation No. 731–TA–1471.
