Determinations

On the basis of the record 1 developed in the subject five-year reviews, the United States International Trade Commission (\textquotedblleft Commission\textquotedblright) determines, pursuant to the Tariff Act of 1930 (\textquotedblleft the Act\textquotedblright), that termination of the suspended investigations on imports of sugar from Mexico would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time.

Ultra-High Molecular Weight Polyethylene From Korea

Determination

On the basis of the record 1 developed in the subject investigation, the United States International Trade Commission (\textquotedblleft Commission\textquotedblright) determines, pursuant to the Tariff Act of 1930 (\textquotedblleft the Act\textquotedblright), that there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of ultra-high molecular weight polyethylene from Korea. Accordingly, effective March 4, 2020, the Commission instituted antidumping duty investigation No. 731–TA–1474 (Preliminary).

Notice of the institution of the Commission’s investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the \textit{Federal Register} on March 10, 2020 (85 FR 13922). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its conference (originally scheduled for March 24, 2020) through written questions, submissions of written testimony, written responses to questions, and postconference briefs; all persons who requested the opportunity were permitted to participate.

The Commission made this determination pursuant to section 733(a) of the Act (19 U.S.C. 1673b(a)). It completed and filed its determination in this investigation on April 20, 2020. The views of the Commission are contained in USITC Publication 5048 (April 2020), entitled \textit{Ultra-High Molecular Weight Polyethylene from Korea: Investigation No. 731–TA–1474 (Preliminary)}.
