Appendix I

Scope of the Investigation

The merchandise covered by this investigation is aluminum foil having a thickness of 0.2 mm or less, in reels exceeding 25 pounds, regardless of width. Aluminum foil is made from an aluminum alloy that contains more than 92 percent aluminum. Aluminum foil may be made to ASTM specification ASTM B479, but can also be made to other specifications. Regardless of specification, however, all aluminum foil meeting the scope description is included in the scope, including aluminum foil to which lubricant has been applied to one or both sides of the foil.

Excluded from the scope of this investigation is aluminum foil that is backed with paper, paperback, plastics, or similar backing materials on one side or both sides of the aluminum foil, as well as etched capacitor foil and aluminum foil that is cut to shape. Where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above. The products under investigation are currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings 7607.11.3000, 7607.11.6090, 7607.11.9030, 7607.11.9060, 7607.11.9090, and 7607.19.6090.

Further, merchandise that falls within the scope of this proceeding may also be entered into the United States under HTSUS subheadings 7606.11.3060, 7606.11.6000, 7606.12.3045, 7606.12.3055, 7606.12.3091, 7606.12.3096, 7606.12.6000, 7606.91.3095, 7606.91.6095, 7606.92.3035, and 7606.92.6095. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Changes Since the Preliminary Determination

Based on our review and analysis of the comments received from parties, we made certain changes to the subsidy calculations for Oman Aluminium Rolling Company LLC (OARC). For a discussion of these changes, see the Issues and Decision Memorandum.

All-Others Rate

Section 705(c)(5)(A) of the Act provides that in the final determination, Commerce shall determine an estimated all-others rate for companies not individually examined. This rate shall be an amount equal to the weighted average of the estimated subsidy rates established for those companies individually examined, excluding any rates that are zero, de minimis, or based entirely under section 776 of the Act.12

In this investigation, we continue to calculate the all-others rate using the estimated weighted-average rate calculated for OARC and its cross-owned affiliates.12

Final Determination

Commerce determines that the following estimated countervailable subsidy rates exist:

<table>
<thead>
<tr>
<th>Producer/exporter</th>
<th>Subsidy rate (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oman Aluminium Rolling Company LLC</td>
<td>1.93</td>
</tr>
<tr>
<td>All Others</td>
<td>1.93</td>
</tr>
</tbody>
</table>

Disclosure

Commerce intends to disclose to interested parties its calculations and analysis performed in this final determination within five days of its public announcement, or if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

As a result of our Preliminary Determination and pursuant to sections 703(d)(1)(B) and (d)(2) of the Act, Commerce instructed U.S. Customs and Border Protection (CBP) to suspend liquidation of entries of subject merchandise as described in the scope of the investigation section entered, or withdrawn from warehouse, for consumption on or after March 5, 2021, the date of publication of the

Preliminary Determination in the Federal Register. In accordance with section 703(d) of the Act, effective July 3, 2021, we instructed CBP to discontinue the suspension of liquidation of all entries at that time, but to continue the suspension of liquidation of all entries from March 5, 2021, through July 2, 2021.

If the U.S. International Trade Commission (ITC) issues a final affirmative injury determination, we will issue a CVD order and require a cash deposit of estimated countervailing duties for such entries of subject merchandise in the amounts indicated above, in accordance with section 706(a) of the Act. If the ITC determines that material injury, or threat of material injury, does not exist, this proceeding will be terminated, and all estimated duties deposited, or securities posted as a result of the suspension of liquidation will be refunded or canceled.

ITC Notification

In accordance with section 705(d) of the Act, Commerce will notify the ITC of its final affirmative determination that countervailing subsidies are being provided to producers and exporters of aluminum foil from Oman. As Commerce’s final determination is affirmative, in accordance with section 705(b) of the Act, the ITC will determine, within 45 days, whether the domestic industry in the United States is materially injured or threatened with material injury. In addition, we are making available to the ITC all non-privileged and non-proprietary information related to this investigation. We will allow the ITC access to all privileged and business proprietary information in our files, provided the ITC confirms that it will not disclose such information, either publicly or under an administrative protective order (APO), without the written consent of the Assistant Secretary for Enforcement and Compliance.

Notification Regarding APO

In the event that the ITC issues a final negative injury determination, this notice will serve as the only reminder to parties subject to the APO of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.
