summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The regulations at 30 CFR part 250, subpart K, concern Oil and Gas Production Requirements (including the associated forms) and are the subject of this collection. This request also covers any related Notices to Lessees and Operators (NTLs) that BSEE issues to clarify, supplement, or provide additional guidance on some aspects of our regulations. The information collected under Subpart K is used in our efforts to conserve natural resources, prevent waste, and protect correlative rights, including the Government’s royalty interest. Specifically, BSEE uses the information to:

• Evaluate requests to burn liquid hydrocarbons and vent and flare gas to ensure that these requests are appropriate;
• determine if a maximum production or efficient rate is required; and,
• review applications for downhole commingling to ensure that action does not result in harm to ultimate recovery.

The forms used in this ICR are:

Form BSEE–0126, Well Potential Test Report

BSEE uses this information for reservoir, reserves, and conservation analyses, including the determination of maximum production rates (MPRs) when necessary for certain oil and gas completions. This requirement implements the conservation provisions of the OCS Lands Act and 30 CFR 250. The information obtained from the well potential test is essential to determine if an MPR is necessary for a well and to establish the appropriate rate. It is not possible to specify an MPR in the absence of information about the production rate capability (potential) of the well. The form asks for, in either fill in the blanks or check marks:

• General information about the well and the company;
• pertinent information relating to the well test; and
• 24-hour rates pertaining to test production.

Form BSEE–0128, Semiannual Well Test Report

BSEE uses this information to evaluate the results of well tests to determine if reservoirs are being depleted in a manner that will lead to the greatest ultimate recovery of hydrocarbons. This information is collected to determine the capability of hydrocarbon wells and to evaluate and verify an operator's approved maximum production rate if assigned. The form was designed to present current well data on a semiannual basis to permit the updating of permissible producing rates, and to provide the basis for estimates of currently remaining recoverable gas reserves. The form requires, in either fill in the blanks or check marks:

• General information about the well;
• volumes;
• choke size;
• pressures;
• production method;
• API oil/condensate gravity; and
• date of test.

Title of Collection: 30 CFR part 250, subpart K, Oil and Gas Production Requirements.

OMB Control Number: 1014–0019.

Type of Review: Extension without change of a currently approved collection.

Respondents/Affected Public: Potential respondents include Federal OCS oil, gas, and sulfur lessees and/or operators and holders of pipeline right-of-way.

Total Estimated Number of Annual Respondents: Currently there are approximately 60 Oil and Gas Drilling and Production Operators in the OCS. Not all the potential respondents will submit information in any given year, and some may submit multiple times.

Total Estimated Number of Annual Responses: 7,688.

Estimated Completion Time per Response: Varies from 1 hour to 100 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 46,466.

Respondent’s Obligation: Most responses are mandatory, while others are required to obtain or retain benefits.

Frequency of Collection: On occasion, weekly, monthly, semi-annual, annual, and varies by section.

Total Estimated Annual Nonhour Burden Cost: $1,077,816.

An agency may not conduct, or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

Kirk Malstrom,
Chief, Regulations and Standards Branch.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–545–546 and 731–TA–1291–1297 (Review) and 731–TA–808 (Fourth Review)]

Notice of Commission Determination To Conduct Full Five-Year Reviews; Hot-Rolled Steel Flat Products From Australia, Brazil, Japan, Korea, the Netherlands, Russia, Turkey, and the United Kingdom

ACTION: Notice.

SUMMARY: The Commission hereby gives notice that it will proceed with full reviews pursuant to the Tariff Act of 1930 to determine whether revocation of the countervailing duty orders on hot-rolled steel flat products from Brazil and Korea, and revocation of the antidumping duty orders on hot-rolled steel flat products from Australia, Brazil, Japan, Korea, the Netherlands, Russia, Turkey, and the United Kingdom would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. A schedule for the reviews will be established and announced at a later date.

DATES: December 6, 2021.

FOR FURTHER INFORMATION CONTACT:

For further information concerning the conduct of these reviews and rules of general application, consult the

SUPPLEMENTARY INFORMATION: On December 6, 2021, the Commission determined that it should proceed to full reviews in the subject five-year reviews pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675f(c)). The Commission found that the domestic interested party group response and the respondent interested party group responses from Australia, Brazil, Japan, the Netherlands, Turkey, and the United Kingdom to its notice of institution (86 FR 49057, September 1, 2021) were adequate and determined to conduct full reviews of the orders on hot-rolled steel flat products from these countries. The Commission further found that the respondent interested party group responses from Korea and Russia were inadequate but determined to conduct full reviews concerning the orders on hot-rolled steel flat products from Korea and Russia to promote administrative efficiency considering its determinations to conduct full reviews on the orders with respect to Australia, Brazil, Japan, the Netherlands, Turkey, and the United Kingdom. A record of the Commissioners’ votes will be available from the Office of the Secretary and at the Commission’s website.

Authority: These reviews are being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to § 207.62 of the Commission’s rules.

By order of the Commission.

Issued: January 14, 2022.

Jessica Mullan,
Acting Supervisory Attorney.

DEPARTMENT OF LABOR
Employment and Training Administration

Investigations Regarding Eligibility To Apply for Trade Adjustment Assistance

In accordance with the Trade Act of 1974 (19 U.S.C. 2271, et seq.) (“Act”), as amended, the Department of Labor herein presents notice of investigations regarding eligibility to apply for trade adjustment assistance under Chapter 2 of the Act (“TLA”) for workers by (TA–W) started during the period of December 1, 2021 through December 31, 2021. This notice includes instituted initial investigations following the receipt of validly filed petitions. Furthermore, if applicable, this notice includes investigations to reconsider negative initial determinations or terminated initial investigations following the receipt of a valid application for reconsideration.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. Any persons showing a substantial interest in the subject matter of the investigations may request a public hearing provided such request is filed in writing with the Administrator, Office of Trade Adjustment Assistance, at the address shown below, no later than ten days after publication in Federal Register.

Initial Investigations

The following are initial investigations commenced following the receipt of a properly filed petition.
