## INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–1545 (Final)]

### Utility Scale Wind Towers From Spain; Determination

On the basis of the record<sup>1</sup> developed in the subject investigation, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is materially injured by reason of imports of utility scale wind towers (“wind towers”) from Spain, provided for in subheadings 7308.20.00 and 8502.31.00 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”).<sup>2</sup>

#### Background

The Commission instituted antidumping and countervailing duty investigations effective September 30, 2020, following receipt of petitions filed with the Commission and Commerce by the Wind Tower Trade Coalition (Arcosa Wind Towers Inc., Dallas,

<sup>3</sup> Electronic Document Information System (EDIS): <https://edis.usitc.gov>.

<sup>1</sup> The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

Texas; and Broadwind Towers, Inc., Manitowoc, Wisconsin). The Commission established a general schedule for the conduct of the final phase of its investigations on wind towers from India, Malaysia, and Spain following preliminary determinations by Commerce that imports of wind towers were subsidized by the governments of India and Malaysia. Notice of the scheduling of the final phase of the Commission’s investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 16, 2021 (86 FR 20197). Counsel for the Wind Tower Trade Coalition withdrew its previously filed request to appear at the hearing, after no other parties submitted a request to appear, and indicated a willingness to submit written responses to any Commission questions in lieu of a hearing. Consequently, since no party to the proceeding requested a hearing, the Commission canceled its hearing in connection with this proceeding (86 FR 31730, June 9, 2021). Parties to this proceeding responded to written questions posed by the Commission in their posthearing briefs.

The investigation schedules became staggered when Commerce did not align its countervailing duty investigation with its antidumping duty investigation regarding imports from Malaysia (86 FR 27828, May 24, 2021), nor with its antidumping duty investigation regarding imports from Spain (86 FR 17373, Apr. 2, 2021), while it aligned its countervailing duty investigation regarding imports from India with that of its corresponding postponed antidumping duty investigation, and postponed its antidumping duty investigation regarding Malaysia (86 FR 15897, Mar. 25, 2021; 86 FR 38274, July 20, 2021; 86 FR 27828, May 24, 2021). On July 26, 2021, the Commission issued a final affirmative determination in its countervailing duty investigation of wind towers from Malaysia (86 FR 41087, July 30, 2021). Following notification of a final determination by Commerce that imports of wind towers from Spain were being sold at LTFV within the meaning of section 735(a) of the Act (19 U.S.C. 1673d(a)), notice of the supplemental scheduling of the final phase of the Commission’s antidumping duty investigation regarding Spain was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission,

Washington, DC, and by publishing the notice in the **Federal Register** of July 9, 2021 (86 FR 36305).

The Commission made this determination pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)). It completed and filed its determination in this investigation on August 9, 2021. The views of the Commission are contained in USITC Publication 5219 (August 2021), entitled *Utility Scale Wind Towers from Spain: Investigation No. 731-TA-1545 (Final)*.

#### Overview of This Information Collection

##### 1. Type of Information Collection

(check justification or form 83):  
Revision of a currently approved collection.

##### 2. The Title of the Form/Collection:

FFL Out of Business Records Request.

##### 3. The agency form number, if any, and the applicable component of the Department sponsoring the collection:

Form number (if applicable): ATF Form 5300.3A.

Component: Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Department of Justice.

##### 4. Affected public who will be asked or required to respond, as well as a brief abstract:

*Primary:* Business or other for-profit.

*Other (if applicable):* None.

*Abstract:* The FFL Out of Business Records Request—ATF Form 5300.3A is used to notify Federal firearms licensees (FFLs) who go out of business to submit their firearms records to the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) if the business

discontinuance is absolute. FFLs can also use the form to notify ATF of a successor business that will maintain control of the firearms records.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* A combined 4,297 respondents will use the form and then package and ship/deliver business records to ATF following business discontinuance. It will take a combined total of 5 minutes for respondents to prepare the form and an additional 11 hours to package and then ship/deliver business records to ATF.

6. *An estimate of the total public burden (in hours) associated with the collection:* The combined estimated annual public burden associated with this collection is 47,523 hours, which is equal to 3,066 (# of respondents who completed the form) \* 0.0833333 (5 minutes or the total time to complete each form) + 4,297 (# of respondents who ship/deliver records) \* 11 hours (time taken to package ship/deliver records to ATF).

7. *An Explanation of the Change in Estimates:* Since the last renewal in 2018, the total responses and mailing costs decreased from 4,607 to 4,297 and from \$ 2,243,013 to \$ 2,098,869 respectively, due to fewer FFLs going out of business. However, the total burden increased to 47,523 hours because it took each FFL more time to prepare an average 7 boxes of business records in 2020, compared to an estimated 4 boxes of records in 2018.
